Dear Mr. Black:

On September 24, 2009, representatives of the U.S. Environmental Protection Agency (EPA) inspected your facility. The inspection was done under the authority of Section 308 of the Clean Water Act, 33 U.S.C. § 1318. A copy of the Spill Prevention Control and Countermeasures (SPCC) Field Inspection and Plan Review Checklist Form is enclosed for your information (without attachments).

EPA is presently reviewing the findings of the report to determine your facility's compliance with the applicable statutes and regulations. If it is determined that violations exist, EPA reserves all rights it may have to take appropriate enforcement action.

If there are any questions regarding this report or actions that you may want to take, please contact Victoria Matthews at (913) 551-7353. You may also contact her if you wish to receive a copy of the report attachments.
